

Steven Piedra Villalta

FULLSTACK DEVELOPER

Full Stack Developer with 3+ years of experience designing, developing, and deploying web applications using .NET Core, React, SQL, and Azure technologies. Experienced in building RESTful APIs, authentication modules, and relational database solutions, delivering scalable applications that support business objectives. Strong technical foundation in software development, system integration, and cloud technologies, with a passion for innovation.

WORK EXPERIENCE

Investigation analyst I

BAC Oct 2024 -At the moment

Experience using data analysis tools in the financial field and creating executive presentations for senior management and vice presidents. Experience in quantitative and qualitative analysis of Fintechs and payment methods in general. Experience with emerging technologies and businesses that generate new revenue streams for the organization.

Critical Processes Assistant

BAC Jun 2023 - Sep 2024

Developed and maintained interactive dashboards in Power BI and Tableau, supporting performance monitoring and business decision-making. Managed end-to-end data acquisition, transformation, and loading (ETL) processes, ensuring data quality and accuracy across large datasets. Prepared executive presentations and analytical reports for senior leadership, providing insights that supported strategic initiatives and management decision-making.

Fullstack Developer

Freelance Jan 2022 - Jan 2023

Supported the development and deployment of web solutions using .NET Core, React, and Azure SQL Database, collaborating with technical teams to ensure successful project delivery. Coordinated implementation activities, system integrations, and solution deployment while contributing to business applications aligned with organizational objectives.
